Think you got it good ?? I think you wires are crooked
Well that don't give you a licence to be stupid
You've gotta move your lip 'cos silence is a hassle
But anyone can talk, anyone can be an asshole

Meet the conversation king, well you can say just
anything
A-a-a-a

CHORUS:

Shut your fucking mouth, and use your fucking
brain(x2)

Gotta keep on talking keep on moving like a dream
Tell me work that mouth and you can get into a team
Times I gotta talk and make you gone I went insane
Shut your fucking mouth, and use your fucking brain

CHORUS:

Shut your fucking mouth, and use your fucking brain
(x4)

Shut your fucking mouth, shut your fucking mouth
Shut your fucking mouth, shut your fucking mouth and
use your fucking brain
