"I Was A Fool"

Visit "[I Was A Fool](#)" on MotoLyrics.com

I was a fool and I believed
There was nothing left for me
Like every fool, I couldn't see
The wondrous beauty for the beast
I was a fool

I was a fool and I believed
There was no one there for me
I guess that it's true, there cannot be
One as blind as one will not see
I was a fool

I was a fool and I believed
The reason stars come out at night
The reason birds fly in the sky
Is the reason you and the reason I can dream
I dream

One day a fool came up to me
And said be careful when you dream
Life can be cruel, it's yours to keep
Treat it gently in your sleep
I was a fool

I was a fool and I believed
The reason stars come out at night
The reason birds fly in the sky
Is the reason you and the reason I can dream
Yeah, the reason stars come out at night
The reason birds fly in the sky
Is the reason you and the reason I can dream
Can dream
I dream
