"Because Of Love"

Visit "[Because Of Love](#)" on MotoLyrics.com

We were born because of love
Gently taken care of
Sheltered with love through the years
And thanks to love, today we are here

If you ever feel afraid
Let love chase your fears away
If you drift against the tide
You'll make it with love at your side

When the load's too hard to bear
You'll always find, someone who cares
Don't cry 'cause love will be there

All because of love
We'll always survive
Faith and hope, keep us alive
You and I

When the mountain seems too steep
The ocean's bed is far too deep
Look up and smile love makes it all worthwhile

In our search for happiness
We settle for so much less
Wealth and riches, power, praise
But only love can lead the way

When the mountain seems too steep
The ocean's bed is far too deep
Look up and smile love makes it all worthwhile

Because of love! .Because of love!
