So cold, you're below the temperature.
So cold, you're below the temperature.
So cold, you're below the temperature.
So cold, you're below the temperature.

Stepped in the spot, cool as a fan. (yes)
Everybody looking wanna know who I am.
Check the guest list, you should already know.
That it's M-E-N-U-D-O.

They let us through and there she was,
Standing by a far. [?]
So J.Lo, just looking like a star.
I had to approach like girl who you are.
Because you got me staring real hard.

This really got me tripping because I've never seen a
girl like you before.
One night is not enough, I gotta see you some more.

If you wanna know, if you wanna know
Girl, you are one of the coldest.
That I've seen on the scene, in a minute I
Gotta get you with me, on my team tonight.
If you wanna know, if you wanna know
Girl, you are one of the coldest.
So cold, you're below the temperature.
So cold, you're below the temperature.
So cold.

Have I already told you how good you look?
Like the chorus to a song, I'm so hooked.
Can't waste no time, gotta get to it.
I'm not the only guy in here trying to get to ya.
I love how you move on the floor doing your thing. (hey
girl)
DJ, I need you to put that on replay. (hey girl)
Hands down, you the baddest,
Something like a classic.
Girl, you got me throwing up my swagger.

This really got me tripping because I've never seen a

girl like you before.
One night is not enough, I gotta see you some more.

If you wanna know, if you wanna know
Girl, you are one of the coldest.
That I've seen on the scene, in a minute I
Gotta get you with me, on my team tonight.
If you wanna know, if you wanna know
Girl, you are one of the coldest.
So cold, you're below the temperature.
So cold, you're below the temperature.
So cold.

You got it freezing up in here,
Girl you got me going.
And you're so cold that I can't keep myself under
control. (Under control)
I never saw a girl like you who can do the things you do.
I just gotta let you know baby, you're so cold.

If you wanna know, if you wanna know
Girl, you are one of the coldest.
That I've seen on the scene, in a minute I
Gotta get you with me, on my team tonight. (woah-oh)
If you wanna know, if you wanna know
Girl, you are one of the coldest.
So cold, you're below the temperature.
So cold, you're below the temperature...
So cold.

If you wanna know, if you wanna know
Girl, you are one of the coldest.
(Hottest girls I've ever seen, something out of a
magazine)
That I've seen on the scene, in a minute I
Gotta get you with me, on my team tonight.
If you wanna know, if you wanna know
Girl, you are one of the coldest.
The coldest, the coldest, the coldest the coldest.
Girl you so cold.
So cold.
So cold.
