"Explosion"

Visit "[Explosion](#)" on MotoLyrics.com

I can hear my heart pounding loud
Every time I feel you're near
Something about the look in your eyes
My defenses disappear

It's the tension...getting closer
That you trigger
You're the sparkâ€¦getting closer
That makes my heart quiver

Danger warnings flash in my mind
When I hold you in my armsâ€¦warnings, warnings
Something about the thrill of your touch
Sets off all my love alarmsâ€¦danger, danger

It's your nearness
It's the pressure
Your intensity
That I treasure

CHORUS:
Like an explosion
My love for you
It's an explosion
My love for you
It's an explosion
That keeps my heart beating
That keeps my soul alive..ive..ive (2x)

My whole system loses control
When I hear you call my nameâ€¦warnings, warnings
Something about the sound of your voice
Sets my body into flamesâ€¦danger, danger

It's your nearness
It's the pressure
Your intensity
That I treasure

CHORUS:
Like an explosion

My love for you
It's an explosion
My love for you
It's an explosion
That keeps my heart beating
That keeps my soul alive..ive..ive (2x)

You are the fire in me
Temperature's rising deep within me
You spark my heart's detonation
You are the thunder, the lighting that strikes me

CHORUS:

Like an explosion
My love for you
It's an explosion
My love for you
It's an explosion
That keeps my heart beating
That keeps my soul alive..ive..ive (2x)

My love for you
My love for you
Alive..ive..ive
