Yes, I see the tears you cry  
I know you're hurting deep inside  
Drowning in a sea of memories  
Of the way things used to be

You sit at home all by yourself  
So no one can hear your cry for help  
I just don't understand why  
You put yourself through this  
Over and over again  
Baby, don't ever let anyone hurt you  
You're too beautiful to be all alone  
And I know it's hard  
Hard for you to see it  
Just open your eyes  
Spread your wings and fly

Baby, don't ever let anyone hurt you  
You're too beautiful to be all alone  
And I know it's hard  
Hard for you to see it  
Just open your eyes  
Spread your wings and fly

I have the key to your happiness  
So you don't have to settle for less  
Just give me the chance to show you  
What's it's like to be loved, babe (Oooh)

You sit at home all by yourself  
So no one can hear your cry for help  
I just don't understand why  
You put yourself through this  
Over and over again

Baby, don't ever let anyone hurt you  
You're too beautiful to be all alone  
And I know it's hard  
Hard for you to see it  
Just open your eyes

Spread your wings and fly

Baby, don't ever let anyone hurt you  
You're too beautiful to be all alone  
And I know it's hard  
Hard for you to see it  
Just open your eyes  
Spread your wings and fly

Baby, what I'm trying to say  
You're the most precious thing that God has ever made  
It's not your fault you were treated that way (treated  
that way)  
So wipe the tears from your face  
It's gonna be okay

Baby, don't ever let anyone hurt you  
You're too beautiful to be all alone  
And I know it's hard  
Hard for you to see it  
Just open your eyes  
Spread your wings and fly

Baby, don't ever let anyone hurt you  
You're too beautiful to be all alone  
And I know it's hard  
Hard for you to see it  
Just open your eyes  
Spread your wings and fly

Baby, don't ever let anyone hurt you  
You're too beautiful to be all alone  
And I know it's hard  
Hard for you to see it  
Just open your eyes  
Spread your wings and fly

Fly (Just fly)  
Fly  
Fly  
Oh Fly (Spread your wings and fly)  
Fly (Yeah)  
Fly (Don't cry no more)  
Spread your wings and fly
