Ooh oh oh oh  
All we got is history  
All we got is history  
All we got is history history history  
All we got is history  
All we got is history  
All we got is history history history  
You had a man  
One that understands  
That love is more than cards and holding your hand  
Not just a fan, what you were to me  
Something that will go down in this dudes history  
I try to make it but you just let go  
You tryna fake it but it felt so cold  
We had our future looking down the road  
Have me getting on my knees  
Now, all we got is history  
All we got is history  
All we got is history history history  
All we got is history  
All we got is history  
All we got is history history history  
I try to shake you. Try to let you go.  
But everytime it's like I see your ghost.  
Can't go to sleep 'cause I think you know  
What our future could be, could be, could be.  
All we got is history, history  
All we got, all we got.  
All we got, all we got  
History.  
It doesn't make sense.  
Guess you need a change.  
What we could have been, you're turning the page.  
If I could go back, be a better man.  
Would it make a difference to you you you you?  
You try to fake it but it felt so cold.  
I try to make it but you just let go.  
We had our future looking down that road  
Have me getting on my knees  
Now, all we got is history  
All we got is history  
All we got is history history history

All we got is history  
All we got is history (all we got it)  
All we got is history history history  
I try to shake you. Try to let you go.  
But everytime it's like I see your ghost.  
Can't go to sleep 'cause I think you know  
What our future could be, could be, could be.  
All we got is history, history  
I just gotta, I just gotta  
I just gotta let you go.  
It's goodbye, it's goodbye.  
Girl, I tried. Now it's for sure.  
It don't matter, it don't matter  
It don't matter, what I think  
Cuz all we got is history.  
I just gotta, I just gotta  
I just gotta let you go.  
It's goodbye, it's goodbye.  
Girl, I tried. Now it's for sure.  
It don't matter, it don't matter  
It don't matter, what I think  
Cuz all we got is history.  
All we got is history  
All we got is history  
All we got is history history history  
All we got is history  
All we got is history  
All we got is history history history  
I try to shake you. Try to let you go.  
But everytime it's like I see your ghost.  
Can't go to sleep 'cause I think you know  
What our future could be, could be, could be.  
All we got is history, history  
All we got, all we got.  
All we got, all we got  
History.
