She tries to get away
She knows she can't escape
And will forever be.
Cause love lives in me

She acts like she don't care
But I know that she's dyng to see me
She looked up and she saw me there
She looked away and I know that it wasn't easy, no

Her eyes, they tell the truth
Even though her words may lie
What was between the two of us can be denied
Because love, love lives in me.
That's why I'm the safest place you could be
Love, love lives in me
So why don't you let love set you free

Love, love lives in me
So why don't you let love set you free

She says that she's happy without me
But somehow I don't believe it
She's quiet but inside she's shouting
Because I know she wants to be with me
[Love Live Bridge (Feat. Rico Love) Lyrics On]
Her eyes, they tell the truth
Even though her words may lie
What was between the two of us can be denied
Because love, love lives in me.
That's why I'm the safest place you could be
Love, love lives in me
So why don't you let love set you free

Love, love lives in me
That's why I'm the safest place you could be
Love, love lives in me
So why don't you let love set you free
Love, love lives in me
So why don't you let love set you free

She said that she's going to go find a better man
I don't think she can
Cause I know (I know, I know) nobody can love her like I
can
I promise I will never let her go

Love, love lives in me
That's why I'm the safest place you could be
Love, love lives in me
So why don't you let love set you free

Love, love lives in me
So why don't you let love set you free

Love, love lives in me
So why don't you let love set you free

So why don't you let love set you free
