My heart is racing
there's fear on her face
We fumble over buttons
In a clumsy kinda way
Exploring each other
Making mistakes
(We both end up laughing ourselves delirious)
The curocity remained
But we know well enough to save the day
If love never dies and
Time never stops
Then why should we watch these
Hands on the clock?
If love never dies
Tomorrow you'll be mine
Thats why, that's why
If you say baby I'll wait
Then I'll say baby i'll wait
We don't have to do it now
Girl my feelings still remain
But we know well enough to save the day
Baby i'll wait
then i'll say baby, i'll wait
When the time is right
On that special night
We may
But we know well enough to save the day

Save the day, save the day
(We should) save the day, save the day

(We should)save the day, save the day yeah

Whispers in my ear
Driving me wild
I catch my breath, can't control myself
My reaction makes her smile
I know why she came here
She knows my desire
(Seems like she's ready for this experience)
She gets close and pulls away
So I know well enough to save the day

If love never dies and
Time never stops
Then why should we watch these
Hands on the clock?
If love never dies
Tomorrow you'll be mine
That's why, that's why

If you say baby I'll wait
Then I'll say baby I'll wait
We don't have to do it now
Girl my feelings still remain
But we know well enough to save the day
Baby I'll wait
then I'll say baby, I'll wait
When the time is right
On that special night
We may
But we know well enough to save the day

Save the day, save the day
(We should) save the day, save the day

(We should)save the day, save the day yeah

Now we ain't got nothin but time, time
We can just slow it down,down, down
And if you ever get the feeling that we're doing to
much
I told you once
It ain't no rush
We can just slow it down, down, down
If you say baby I'll wait
Then I'll say baby I'll wait
We don't have to do it now
Girl my feelings still remain
But we know well enough to save the day
Baby I'll wait
then I'll say baby, I'll wait
When the time is right
On that special night
We may
But we know well enough to save the day

Save the day, save the day
(We should) save the day, save the day

(We should)save the day, save the day yeah

Save the day, save the day, save the day, save the day
Save the day, save the day, save the day, save the

day, oh...
