(Verse 1)

Your lusting for me  
like your posters on the wall  
your touching yourself but  
i rather be involved with you  
create a sweet escape for you  
tonight  
you see me in clothes  
but you rather see me bare  
making your way there while  
pulling down your hair telling me  
you wanna give it to me like you dream

Girl i know how you feel  
cause i got that appeal  
to make your body melt  
when you see me appear  
the model of a man  
you'll be their crave  
the image of your fantasy

(Chorus)

Cause im your...

but im coming out the page for you
