What you do to me
Is driving me insane
I can't explain
What you make me feel
I never felt before
Just give me more

I got no explanation
Even lost my sense of direction
Can't tell pears from apples
But I love it, I love it, I love it

CHORUS:
I go North, North when it's South
I go in, in when it's out
I count three, just you and me
That's what you do

I feel cold, cold when it's hot
I see red, red when it's brown
I go up, up when it's down
That's what you do

Electricity
The burnin' spark in you
Short circuits me
Trigonometry
I even learned to like
More than my bike

I bite into a lemon
And it tastes like watermelon
Can't tell from noon from midnight
But I love it, I love it, I love it

CHORUS:
I go North, North when it's South
I go in, in when it's out
I count three, just you and me
That's what you do

I feel cold, cold when it's hot
I see red, red when it's brown
I go up, up when it's down
That's what you do (3x)
