As the heavens opened  
Light poisoned the air  
All fallen angels followed  
The leader's fiery glare  
They came with the storms  
Once heaven's delight  
He summoned them all  
An army with pride

And then at dusk  
When daylight went  
The fallen angels  
With black - blooded scent  
They bowed before him  
To speak the oath with eyes so black  
A mighty voice cut the silence  
The lord of falsehood raised his head

We are casted out of this false paradise  
So let us join under the banner  
To perish his kingdom

This god exists no more  
In ruins he will reign  
A worthless victory  
For all eternity  
Let this be your last fate  
To fight for hell  
My renewed paradise  
Lucifer's spell

Soon we will return  
The dark kingdom's ascension  
Oh winged flock of impurity  
The poetry of this dark quest  
Lead me to redemption

The armies carry on his will is rule for all  
The time is near for heaven's fall  
He spreads the seed of purest greed  
The battle has begun

They fought for endless power  
Bloodred skies are ours  
War of angels... War

The troops of light exist no more  
Dark winged angels gather in victory at the  
Twilight shore...  
He spreads the seed... of purest greed
