It was how Dave said "us"
Like the last three years had never happened
It was how George walked down and threw dirt onto the
casket
It was how I know you would want this to be a fast one
And not some cliché ballad

I'm slowing down in the August air
A heavy heart and shaking hands carried you up here
I buried half of a decade there
It was the better part
You'd catch the reference if only you could hear
Because I can still hear you in the bass drum beat after
"I'll Catch You"
I'm left wondering if you meant anything when you
typed out
"You never got me down, Ray. I never went down"

You know the f*cked up part is
I kind of always knew we'd have to write a song about
this
You know the f*cked up part is
I had my fingers crossed that it wouldn't be for you, kid
You know the f*cked up part is
It's been months, and I still have nightmares
You know the f*cked up part is
I'm never going back there
You know the f*cked up part is
The f*cked up part is the f*cked up part is... f*ck.
