Step inside, the reason why
We look together then we find
Come inside, the world's a ball
We rise above it as we fall

Everybody's open air, so love me
Love me, love me where?
A million things and one to fly
Say life's a witch and then you smile

Took a trip inside your heart
Has seen much better days
Before we hit the high
Here's to you, sideways

The moon is warm, the river's high
And love, forever never dies
Check inside yourself and see
That life is what you want to be

Took a trip inside your heart
Has seen much better days
And before we hit the right one
Here's to you sideways

Here's lookin' at you sideways
Sideways, dreamin' of you sideways, sideways

Had a dream where everybody
Looked like someone else
The farthest I could get from
Was the closest to myself

Tonight I'll dream tomorrow's
Going to be that better day
And in the morning, I'll remember you
Sideways, sideways

Sideways, here's lookin' at you sideways
Sideways, I'm dreaming of you sideways
Gonna give it to you sideways
