I'm still the king of the world

I'll never fall to who's haunting my dreams

I've still got control

You are my enemies

Cause you beg me for mercy

Show no mercy

Show no mercy

I've fought for this kingdom

I'll take all of that is mine

I'll bring the war on the enemies

If you want me, I'm right here

I gave everything

Everything that I have

There's always a war within me

I never let it show, I'll never let my family down

Fight for what you stand for

If you fight and die of those inductions

What was the meaning of it now

I have too much riding on me

To be the man I was born to be

This is a family

We won't gravel at the face of our enemies

Or our families

This is a family

We won't gravel at the face of our enemies

This is a family

Don't fuck with family

We won't fall

I will not ever let this kingdom fall

I gave everything

Everything that I have

There's always a war within me

I never let it show

I'll never let my family down

Fight for what you stand for

If you were me  
Would you switch on what you've known?  
My sacrifice  
My sacrifice

I'm never giving up  
For those I love  
My sacrifice  
My sacrifice

Your dreams have come to an end  
Because this was mine and I won't give in  
Your dreams have come to an end  
Because this was mine and I won't give in

Your dreams have come to an end

I'll never lose sight of what I believe  
I'll fight for my friends, my family

We won't fall

I gave everything  
Everything that I have  
There's always a war within me  
I never let it show, I'll never let my family down  
Fight for what you stand for

If you were me  
Would you switch on what you've known?  
My sacrifice  
My sacrifice

I'm never giving up  
For those I love  
My sacrifice  
My sacrifice

I'm still the king of the world  
I'm still the king of the world
