You're fucking fake, two faced

You've gone down this path of no return
The reputation you have, you haven't earned
Now it's time you learn

I think you're cursed, what can I say
I'll crush your dreams, I'll end your days now

Why am I the only one who sees inside you
I see right through you
Why am I the only one who knows exactly who you are
Exactly who you are

Your lies will fall on my deaf ears
You can't ruin anymore lives
Now live in fear
Live in fear, live in fear, live in fear of me

Why am I the only one who sees inside you
I see right through you
Why am I the only one who knows exactly who you are
Exactly who you are

This time your lies won't get you far
We know who you are
This time your lies won't get you far
We know who you are

This time your lies won't get you far
We know who you are
This time your lies won't get you far
We know who you are

This time your lies won't get you far
We know who you are

Why am I the only one who sees inside you
I see right through you
Why am I the only one who knows exactly who you are
Exactly who you are

Why am I the only one who sees inside you
I see right through you
Why am I the only one who knows exactly who you are
Exactly who you are

This time your lies won't get you far
We know who you are
This time your lies won't get you far
We know who you are
