Only crazy people fall in love with me
They come from all over to be with me
Bank robbers and killers drunks and drug dealers
Only crazy people fall in love with me

He came from Carolina on a westbound freight train
And didn't have no ticket but he got here the same
He left i remember
That's nine months to go
That's why i killed his wife
And wrecked up his home

Only crazy people fall in love with me
They come from all over to be with me
Bank robbers and killers drunks and drug dealers
Only crazy people fall in love with me

He fled mississippi with me at his side
A trunk full of money and no place to hide
Well he loved his whiskey and his fist loved my face so
i buried that man
They wont find a trace

Only crazy people fall in love with me
They come from all over to be with me
Bank robbers and killers drunks and drug dealers
Only crazy people fall in love with me

Only crazy people fall in love with me
