There ain't no ferry to Glastonbury, but that don't  
bother me,  
Though I'm tired and weary, there's a little dearie,  
waitin' there for me,  
Workin' all day in the meadow, started with the mornin'  
dew,  
Day's been hot, and my old dog Spot, he's feelin' weary  
too.

There ain't no ferry to Glastonbury, but that don't  
bother me,  
Though I'm tired and weary, there's a little dearie,  
waitin' there for me,  
Bees in the hedgerows are buzzin', all of the world is in  
bloom,  
Sleepy cows just sit and browse, takin' in the day's  
perfume.

Instrumental passage

Golden haze on the river, dust and heat all the way  
But I can think of that long cool drink, before I hit the  
hay.

There ain't no ferry to Glastonbury, but that don't  
bother me,  
Though I'm tired and weary, there's a little dearie,  
waitin' there for me,  
Afternoon shadows grow longer, trees shade the  
evenin' sun,  
And I'm content of a day well spent, another job well  
done!

There ain't no ferry to Glastonbury, that don't bother  
me,  
Though I'm tired and weary, there's a little dearie,  
waitin' there for me,  
That don't bother me.....
