Whoa, oh, oho, whoa, oh, oho  
You knew better, I knew better  
Knew you wouldn't change  
My love's been real and it's 3 years  
In this, boy you're still the same  
Standing in your rain, your bad weather  
It can't get no wetter  
You looked right in my eyes and told me that you'll love  
me better  
But now I'm caged in my fears  
And I'm drowning in my fears  
And I had the love that would have lasted you a  
lifetime,  
A lifetime, a lifetime,  
Lasted you a lifetime, a lifetime, a lifetime, whoa, oh

You knew better, I knew better  
Knew you wouldn't change  
My love's been real and it's 3 years  
In this, boy you're still the same  
Standing in your rain, your bad weather  
It can't get no wetter  
You looked right in my eyes and told me that you'll love  
me better  
But now I'm caged in my fears  
And I'm drowning in my fears  
And I had the love that would have lasted you a  
lifetime,  
A lifetime, a lifetime,  
Lasted you a lifetime, a lifetime, a lifetime, whoa, oh.
