Ooo (I see yall jocking Dream now)
Ooo Ooo (I see yall rapping ass niggas)

O baby stop whatcha doing
And bring your little body up up in this bed
Ooo Ooo Ooo Ooo naww
Have you ever had somebody
Do it to you while they were playing with your head
Ooo Ooo Ooo Ooo naww
You want it from the front or the back
On your side just relax
And let me lay between your legs
O O umm umm
I see ya running like a track meet
With your baton saying catch me
Baby don't be scared (don't be scared)
I'm all up on you like a monster truck
I'm all up on you like shorty what's up
I'm all up on you like a white tee on a thug
If you can hear me baby put your hands up
And when they ask about me
You say (put it down 5x)
When they say
Does he make that horn go beep?
You say (put it down 5x)
Is he any good from the back?
You say Put it down 5x
Well what about this-a-way you say
Put it down 5x

Whoo
Well if they ask you can I sing like Usher
Say No
But I could make you sing like Mariah

Ooooo
If they ask you do I dance like Chris?
Tell them No
But as much rubbing as we do I could start a fire
Hey bring the water
We sweating out the sheets
Shorty bring that body back to me
Shorty round after round it's going down
Call me I lead the way I'll knock your ass down

Chours

Now I'm all up on you like a monster truck
I'm all up on you like Shorty what's up
I'm all up on you like a white tee on a thug
If you can hear me baby put your hands up
And when they ask about me you say
You say (put it down 5x)
Make that horn go beep
You say (put it down 5x)
Is he any good from the back? You said
Put it down 5x
Well what about this way you say
Put it down 5x

A-T-L-A-N-T-A G-A- that's where I stay
I get my mother fukin freak on like every day

You fineyou sigh
Never had nobody put it on your ass like that
But still put a tone and bring it right back
That's whatcha want I know you like that
She's on a high whatcha think about that
I love you girl

Chours

And when they ask about me you say
You say (put it down 5x)
When they say
Does he make that horn go beep
You say (put it down 5x)
Is he any good from the back?
You say Put it down 5x
Well what about this way you say
Put it down 5x (fades out)
