[Verse 1]

Me and you

We like 1 2

We go together like navy blue

If I had to choose

I'd do it again

Cause you own my heart

I'm a love you till the end

[Bridge]

I'm a stand right by you you you

Until my eyes see a million moons

It seems like I got with you way back when

And we've been known ever since

[Chorus]

Yeah ever since yeah ever since yeah ever since yeah
ever

Girl you know you got my love love girl you know you

got my love love girl you know you got my love love

Love love love love

[Verse 2]

You're everything I do

Since I put you on my team we never lose

I'm in love with the simple things of you

This feels unreal glad to know its true boy

And I miss your kisses

I miss your touchin'

I miss your lovin'

Right now now

And I got you with me

I take you with me

No matter where I go oh oh oh

[Bridge]

I'm a stand right by you until my eyes see a million
moons

It seems like I got with you way back when

And we've been home ever since

[Chorus]

Yeah ever since yeah ever since yeah ever since yeah
ever

Girl you know you got my love love girl you know you

got my love love girl you know you got my love love

Love love love love
Girl you know you got my love love girl you know you
got my love love girl you know you got my love love
