One day I'll have a million words to explain,
Some day I will love u in every way... I...
In Time u'll b mine,
And I'll luv u even though
Today the sun don't shine.
And I'm willin to give me all of you
No lie I'm willing to build it all for you
I see, one day I'll be
More than just everything

And I know that I haven't learned it all
Just know that I will b there when u call
It's young love but I have made up my mind
But we will grow, You will know
In time...
