Oooh

The name of money

Uu yea, yea yea....

Yea.. a a yea...

[Verse 1]

You, (you you you)

You can't say that I really

didn't love ya.. (aaah)

there's a new new new new

new Louis bag everytime

that I touched you

Quit acting like I'm the only

one to blame honey

didn't hear you scream

when you was tricking off

my money

But you left me here

to clean up your dirty laundry

Oh yea...

So kiss that nigga

Hug that nigga

Love that nigga to death

Go ahead and please that nigga

Beat that nigga

In time you'll see the

problems yourself

[Chorus]

Cause when love is your problem

Nothing can solve it,

When love is the problem

Money can't solve it

When love is your problem

Nothing can solve it

When love is your problem

No man can solve it

Love is your problem

[Verse 2]

Now you you you
Can look back at all the
shit you've done
To her loves the jail, so
she stays on the run
You give her money, she want love
You give her love, she's back at money
Shell run from man to man
Making plans to plan,
No secret ya'll know who
we talking bout

[Chorus]

Cause when love is your problem
Nothing can solve it,
When love is the problem(
there ain't nothing)
Money can't solve it
When love is your problem
Nothing can solve it
When love is the problem
No man can solve it

Nothing can solve it
Solve it
Solve it
Solve it Oh oooh
I wonder if you will ever
take the responsibility
of what you've already done
By the time you'll figure
out that she's not the
one, 3 years that went
by, nigga you done
you're done
you're done
you're done

Nigga you done
you're done
you're done...

You can have her back..
