"She Needs My Love"

Visit "[She Needs My Love](#)" on MotoLyrics.com

You seen her walkin' through
Hartsfield International
On her way to see me
She's far from the girl that you used to know
Flossin' keys to your Phantom
And you know that she's my girl
Still, you try to get at her
But she push the brakes on that sh*t like skkrt!
And I don't blame you
'Cause God, the girl look good
She said she couldn't even if she could

She needs my love
She said I'm like the air and without me she'll die
If it ain't my love
You better have a doctor on standby
She needs my love
She said I'm like the air and without me she'll die
If it ain't my love
You better have a doctor on standby

You seen us walkin' through the club
Little Fendi skirt, lettin' them panties show, oh
She grindin' on me, me
I see ya tryin' to flirt with her on the low
Flossin' keys to your Rover
Boy you know that that's my girl
I left and ya made ya way over
She push the brakes on that sh*t like skkrt!
And I can't blame ya
'Cause goddamn the girl is fine
She says she can't because she's mine, mine, mine

She needs my love
She said I'm like the air and without me she'll die
If it ain't my love
You better have a doctor on standby
She needs my love
She said I'm like the air and without me she'll die
If it ain't my love
You better have a doctor on standby

From the look of my wardrobe
I can see why you mad though
See me up in Bankhead, chillin' with a bad hoe
Tell Oprah I'm sorry, I really meant to say bad though
She keep them thongs ch, ch, ch, chewin' on her
a**hole
I'm all up on her a** though
Runnin' it like a cash drawer
I'm still hood
Even though my bank account upper class, hoe
We 3 minutes into the song, but still ni**a you mad
though
But now he squintin' from my wrists
'Cause my wrists got some mad glow

She needs my love
She said I'm like the air and without me she'll die
If it ain't my love
You better have a doctor on standby
She needs my love
She said I'm like the air and without me she'll die
If it ain't my love
You better have a doctor on standby

Call 911 if my love ain't there, there, there, there
Call 911, tell paramedics to bring her air, air, air, air
She needs my love
She needs my love
She needs my love
You better have a doctor on standby
