(ay 6x's)

i may scream out my lungs.
i may piss you off.
i may make tears fall down
but know i mean no harm
but please remain my tree
stay standing by me.
cuz everytime we break up
yah we fix us

this love is just to good to leave.

(your kiss holds me)

this love is just to good to leave

(your love de-clotes me?)

this love is just to good to leave

{your heart feeds me)
this love is just to good to leave
