"I Need A Witness"

Visit "[I Need A Witness](#)" on MotoLyrics.com

Tell me something I don't know already
We raise the bar I hope that ya ready
We come through to make the bass heavy
Make the place shake to keep the bass steady
What ya waitin for it's time to dance
Get ya skates on this might be ya last chance
We bring it different we bring it new
Representing Christ in everythin that we do

Ain't never gonna let this go
I found love that'll make me whole
It's burnin down in my soul
Rise up and take control
Ain't never gonna be the same
I found love that'll heal the pain
Reach out and call His name
Stand up as we proclaim

I need a witness
Bring it back don't stop til ya get this
Keep the beat fresh
Now's the time to feel somethin brand new
I need a witness
Thebandwithnoname we keep up the fitness
Ya gotta get this
Bring it back just praise Him like we do

Open up and just catch the spirit
The voice of God is here boy can you hear it?
Just react as I bust out my lyric
I'm so blessed to give it the way that I deliver it
The key fits and I got this locked
Bring it hard to your heart cos I'm ready to rock
Can't stop let it drop through the microphone cord
Lift up His name giving praise to the Lord
