I betcha didn't see that this chip K was comin  
You were runnin too blocked up to let the Son in your  
face  
A disgrace you never pick up the pace  
Don't chill you don't stand still  
Not stop in your tracks like an axe never relax  
You'll miss out and I'm tempted to say that's okay  
That's just fine so that this line can rhyme  
But I think you know you're to slow to up the tempo

I wanna see you lift it up let it go  
Bounce to the rhythm bounce with the flow  
As we lift it up give you what you need  
We're gonna increase the speed

Take it up take it up take take it  
Take it up take it up take take it  
Take it up take take it take it up  
Take take take up the tempo!

Everybody get ready like Eddie Kidd  
Steady up your belt don't melt the cards  
Have been dealt  
Make it tight we're not just playing with light  
Kickin it quicker than the speed of sound  
Now we're hittin the ground not just messin  
Ourselves around  
Like Scooby-Doo and Shaggy too who's who  
Am I livin in a materiall deja vu  
Am I livin in a material deja vu

I wanna see you lift it up let it go  
Move to the rhythm move with the flow  
Lift it up now here we go  
We're gonna take up the tempo
