The creepy owl was in my car
Threw it out and now I'm scared
Drag the trash out to the yard
The mother made me, now I'll cry

It was heavier than last week's
Can't deny
So I guess I'll look inside

We found kids in the garbage can
We found kids in the garbage can
We found kids in the garbage can
We found kids in the garbage can

Broke a light bulb in my room
I was singing with a broom
Leonardo cried a bit
But it's O.K., I had 3
more

As I brought the broken pieces out the
door
And i threw them in the can

We found kids in the garbage can
We found kids in the garbage can
We found kids in the garbage can
We found kids in the garbage can

The creepy owl was in my car
Threw it out and now I'm scared
Drag the trash out to the yard
The mother made me

We found kids in the garbage can
We found kids in the garbage can
We found kids in the garbage can
We found kids in the garbage can
