

Thee More Shallows "Pre-Present"

Visit "[Pre-Present](#)" on MotoLyrics.com

The present in your lap has already been unwrapped
Already given and already used, many times before
you
And so it goes

That knowing where it's been makes you worry that
within
It's been tampered with, has it gone bad?
Open it and see

Maybe it's filled to the brim with magic pennies!
Each time the present is received there are more!
And they will roll all over the floor and past your feet
And give themselves away out on the street to
everyone they meet!

Grab the pennies off the floor
Take the pennies to a store
Buy everything you could afford
And don't tell anyone
