Playgirl everybody knows your name
Stray girl you're making it very plain
Runnin' 'round on me, turnin' out to be
Such a playgirl (playgirl)
You're not the same girl (same girl)

Playgirl I used to be your number one
But hey girl you had to go and have your fun
Oh what's come over you
What did you go and do
You're such a playgirl (playplay)
Oh what a shame girl (shame girl)

Someday you'll come running back to me
(Someday you'll come running back to me)
When you find how lonely it can be
To be a playgirl (playgirl)
You're such a playgirl (playgirl)

Playgirl everybody knows your name
But hey girl you know I love you just the same
Yeah someday you will see how lonely it can be
To be a playgirl (playgirl)
And you'll come back to me (playgirl)
And you'll come back to me (playgirl)
And you'll come back to me (playgirl)
And you'll come back to me
