INTRO:

MLK: This situation, can and will be changed

Malcolm X: By any means necessary

Can you see?

It's time to make a change

You better believe

It's time to make a change

It's time for rearranging

The seasons are no longer changing

And it's time to stop all the make believe

And start paying attention to the buds that should be
leaves

And the stars are no longer dancing in the sky

It's time to open our eyes

Like the autumn leaves that fall from the trees

It's time for us

It's time for us to make a change

Can you see?

It's time to make a change

You better believe

It's time to make a change

World peace is not a mystery

Even if we practice

It still would be

It's time for some old school history

Like the parting of the sea

That brought Pharaoh to his knees

If you look inside yourself

Tell me what you see

Is it the demons within thee?

Or the faith of a mustard seed

Like the message in Dr. Kings, I Have a Dream

It's time for us

It's time for us to make a change

Can you see?

Its power in the words you speak

It's time to make a change
You better believe
So be careful with the words you preach
It's time to make a change

CHORUS VAMP (REPEAT TO FADE OUT):

Hold on
Hold on
It's time for a change
It's time for a change hold on

LEAD VAMP:

Take a look at yourself
You don't need nobody else - hold on

Have faith in the mustard seed
Stand up for what you believe " hold on

Can you see " hold on

You gotta change your life
And start doing what you know is right " hold on

You better believe
It's time to make a

People you hang around
They'll only bring you down " hold on

Can you see " hold on

Take a look at yourself!
Instead of everybody else " hold on
You gotta hold on
