Are you sure?
Are you sure?
Are you sure?

This is for the ladies
Give the ladies what they want
Get up on it

Come on baby
This is for the ladies
Give the ladies what they want
Get up on it - Are you sure?

You said if ever you got to me alone
That I'd be surprised with how good, you got it
going on
You said give me chance, so you can prove it
And I think I will, so come on and do it

You told me, you would have me screaming out your
name
And that your love is so good, it's never, ever
the same
And now you can do for me, things I've never
seen
Come on and do it
And when I fall asleep, your body's dancing in
my dreams

This is for the ladies
Give the ladies what they want

Come on baby
Are you sure?

We're gonna see who can do who
I bet you fall in love before I do
Give the ladies what they want

Now that you got yourself in the spotlight baby
Now here's your chance to back out, I'll
give you that right

Cause all the things youÃ¢â€Œ™ re telling me,
IÃ¢â€Œ™ ve heard them all before
So you better be sure, IÃ¢â€Œ™ m all youÃ¢â€Œ™ re
looking for

With all the things youÃ¢â€Œ™ re saying, IÃ¢â€Œ™ ve
had them all done
You gotta know baby, you wonÃ¢â€Œ™ t be the first one
DonÃ¢â€Œ™ t let your mouth say something, that your
body knows ainÃ¢â€Œ™ t real
You better check yourself, before you wreck yourself
And fall head over heels

This is for the ladies
Give the ladies what they want

Come on baby
Get up on it
Are you sure?

WeÃ¢â€Œ™ re gonna see who can do who
I bet you fall in love before I do
Give the ladies what they want

You better be sure, you wanna play this game
My love, it donÃ¢â€Œ™ t come easy
You canÃ¢â€Œ™ t get it that way

It takes more than a warm body, to get inside of my
heart
If you wanna be with me baby
ThatÃ¢â€Œ™ s not the way, you should start

This is for the ladies
Give the ladies what they want

IÃ¢â€Œ™ m gonna love ya; I will squeeze you
Gonna give you everything you been missing
Warm and sweet juicy kissing
I wanna love you every day and night
With all of my might

Let me love you, from the highest mountain baby
To the deepest ocean
IÃ¢â€Œ™ ll buy for you, whatever you want
Whatever you need
