It was time
Lovin' all the girls was fine
But she came along
Young yet wise
Kinda dropped out of the skies
And blew his mind
Yes, she blew his mind

He cud not believe it
It was everything he needed
It was plain 2 see that

Chorus:
She was some kind of
Angel, ooh
Was some kind fo angel
Perfection in his eyes for the rest of his life

Cud she be his
After the first time he met her
He was already naming their kids, yeah
Somethin' like this
Is just what papa told him he should never ever miss
Wud be so nice 2 wake up 2 her
Every morning and every night, yeah
It feels so right
And in his heart he know that she's the 1
Who will 1 day be his wife

He cud not believe it
It was everthing he needed
It was plain 2 see that

Chorus

He could not believe it
It was everything he needed
So plain 2 see that

Chorus
