Masturbation saved my life
I was nervous as a child
you were someone out of my hands
couldn't understand or have
she's not trying to catch your eye
she's just trying to get a life
he feels weak when she is strong
feeling threatened when he's wrong
femination generation femination generation

do you want a fuck? do you want a friend?
do you want sex? do you want revenge?
you never make love with a smile on your face
punished with love and rewarded with hate
femination generation femination generation
I'm just with you that will never mean
that I'm just for you
