You make me sick everyday  
I have to go and turn away  
My futures gone  
I can't resist  
And I'm down to my last  
Get through this day  
I make a picture  
Of a knife stabbed in my heart  
Just to let you know how I feel

Want to die  
That's what I want  
I want to die  
It's all your fault

Noir voodoo  
Sitting here with out you  
Dirty looks  
I want to make  
At you when you come by me  
Without your I'm really lonely

Want to die  
That's what I want  
I want to die  
It's all your fault

I'm sick of you  
Throwing this shit in my face

I want to die!
