### "End Of Summer"

Here we are at the end  
Say goodbye to all your friends  
Here we go watching the sun go round  
Sitting on a rooftop making time stop  
I never want to come back down, never want to come down

#### Chorus

It's the end of the summer, it's the end of it all  
Those days are gone, it's over now, were moving on  
It's the end of the summer  
But we'll see it all again  
So hold on till this moment till then  
It's the end of the summer

Here we stand in the middle of an empty street  
Tell me where you want to go  
I'll tell you that's where I want to be  
Say goodbye to the warm breeze  
We could be almost anywhere  
I'll miss you till the next time  
I hope I see you there  
I hope I see you back here

#### Chorus

Rides almost over, it's getting colder  
Take one last look before it passes by, before it passes you by

#### Chorus (2X)
