Here we are
At the end
Say goodbye to all your friends
Here we go watching the sun go round
Sitting on a rooftop making time stop
I never want to come back down never want to come
down

Its the end of the summer
Its the end of it all
Those days are gone its over now were moving on
Its the end of the summer
But we'll see it all again
So hold on till this moment till then
Its the end of the summer

Here we stand
In the middle of an empty street
Tell me where you want to go
I'll tell you thats where i want to be
Say goodbye to the warm breeze
We could be almost anywhere
Ill miss you till the next time
I hope i see you there

I hope i see you back here.

Its the end of the summer
Its the end of it all
Those days are gone its over now were moving on
Its the end of the summer
But we'll see it all again
So hold on till this moment till then
Its the end of the summer end of the summer

Rides almost over
Its getting colder
Take one last look
Before it passes by befor it passes you by

Its the end of the summer
Its the end of it all

Those days are gone its over now were moving on
Its the end of the summer
But we'll see it all again
So hold on till this moment till then
Its the end of the summer
[repeat x2]

End of the summer
