As your voice falls silent  
And dies with you  
As my mind is opening  
Who will follow me now?  
Turn to understanding  
Of the difference in between  
To see what lies beneath me  
And to try to set the scene

I lost my faith tonight  
I found my soul in you  
... I long

I long  
My death connection  
Embrace me  
Consumed  
By self deception  
Free the memory

Touch my death connection  
As long as I am God  
Dream my six commandments  
The lie is intertwined  
The search for death continues  
As long as I am here  
Believe your own reflection  
When darkness reappears

I lost my faith tonight  
I saw my soul in you  
... I long

I long  
My death connection  
Embrace me  
Consumed  
By self deception  
Free the memory  
To be  
My death connection  
Deceive me

And feel  
Divine redemption  
Embrace reality

Have I lost myself in you?  
All these silent screams fall through  
Fall through

Don't try to save me  
Don't try to save me now  
Your words will break me  
Your words will break me down

Have I lost myself in you?

I have lost my soul  
I have lost myself in you!

I long  
My death connection  
Embrace me  
Consumed  
By self deception  
Free the memory  
To be  
My death connection  
Deceive me  
And feel  
Divine redemption  
Embrace reality
