

These New Puritans "Colours"

Visit "[Colours](#)" on MotoLyrics.com

If not now then when? If not now then when?
Us with the numbers in the back of our eyelids

The colours that you don't see
The colours that you don't see
The colours that you don't see
The colours that you don't see... see... see is gold!

Gold! Gold! Gold!

If not now then when? If not now then when?
You with the numbers in the back of your eyelids

The colours that you don't see
The colours that you don't see
The colours that you don't see
The colours that you don't see... see... see is gold!

Gold! Gold! Gold!

The colours that you don't see, the colours that you
don't
And the numbers that you're trying to identify with
answers to
The mirror which is made up of colours
