### "The Frozen Seas Of Atland"

Here our memory lies  
Frozen in ice  
Erased from this earth  
Awaiting rebirth

Our mortal lives are long gone  
But our recollection is clear  
I remember the day  
When the earth trembled  
And when fire filled the sky

The stars lost their place  
The serpent beat the waves  
I heard the howling in the air  
The wolf broke his chains

The end came so fast  
Destroying the kings of man  
Wiping cities away  
Civilisation ends here

... and our bodies lie  
Buried in the Sea  
... and our legacy died
