The known, the unknown  
and the under-known.  
Look at what she found  
digging all around  
by the gold fish pond.  
She's gonna get in trouble now.  
Shaking up the bees  
swingin' from the trees,  
doesn't understand.  
She's in trouble now.

It's a new year,  
careful what you pack.  
There's no going back.  
She's lost from the beginning.  
She's the new girl.

She thinks she's smart,  
she's just curious.  
She thinks she's alone,  
doesn't even know

someone's watching her.  
She's gonna get in trouble now.  
Wavin' from the shore,  
never knew before,  
doesn't understand.  
She's in trouble now.

It's a new year,  
careful what you pack.  
There's no going back.  
She's lost from the beginning.  
She's the new girl.

Careful what you pack.  
There's no going back.  
She's lost from the beginning.  
She's the new girl.
