Everything is catching
Yes, everything is catching on fire
Everything is catching on fire
Everything is catching on fire

I hear the wind blow
I hear the wind blow
It seems to say, "Hello, Hello
I'm the one who loves you so"

Hey now everybody now
Hey now everybody
Hey now everybody now

Who's that standing
Out my window?

I found a new friend
Underneath my pillow

Come on and wreck my car
(Come on)
Come on and wreck my car
(Come on)

Come on and wreck my car
(Come on)
Come on and wreck my car
(Come on)

Are you the guy
Who hit me in the eye?
Are you the guy
Who hit me in the eye?

Please pass the milk, please
Please pass the milk, please
Please pass the milk, please

Leave me alone, leave me alone

Who's knocking on the wall?

All alone, all alone
All by myself

What's that blue thing doing here?

Something grabbed ahold of my hand
I didn't know what had my hand
But that's when all my troubles began

I don't understand you
(I don't understand you)
I just don't understand you
(I don't understand you)
I don't understand the things you say
I can't understand a single word

I don't understand you
(I don't understand you)
I just don't understand you
(I don't understand you)

I cannot understand you
(I don't understand you)
I don't understand you
(I don't understand you)

I heard a sound, I turned around
I turned around to find the thing
That made the sound

Mysterious whisper
Mysterious whisper
Mysterious whisper
Mysterious whisper

The day that love came to play

I'm having a heart attack
I'm having a heart attack
I'm having a heart attack
I'm having a heart attack

I walk along darkened corridors

And I walk along darkened corridors
I walk along darkened corridors
And I walk along darkened corridors
