Sometimes I feel like being wispy
And once in a while I feel like being dry
But we're doomed and we're drowned by this feeling
we surround
So I hope that I get old before I die

Oh, it's a long, long rope they use to hang you soon I
hope
And I wonder why this hasn't happened, why why why?
And I think about the dirt that I'll be wearing for a shirt
And I hope that I get old before I die

Clear off the kitchen table darling
For on the kitchen table I must lie
I'm just tired for my wife served the banquet of my life
And I hope that I get old before I die

Oh, it's a long, long rope they use to hang you soon I
hope
And I wonder why this hasn't happened, why why why?
And I think about the dirt that I'll be wearing for a shirt
And I hope that I get old before I die

Oh, it's a long, long rope they use to hang you soon I
hope
And I wonder why this hasn't happened, why why why?
And I think about the dirt that I'll be wearing for a shirt
And I hope that I get old before I die
