They Might Be Giants Lyrics

I'm Sick (Of This American Life)

Screw kid, I got nothin' to say
Quit buggin' me, go away
High time you realize
I didn't come here to socialize

I'm sick
Sick of this American life
And I've learned the value of human sacrifice

I like staring at two glass eyes
Keep 'em stuffed museum-style
Got alarms set all around
In case they move around

I'm sick
Sick of this American life
And I've learned the value of human sacrifice
