

They Might Be Giants "Older"

Visit "[Older](#)" on MotoLyrics.com

You're older than you've ever been
And now you're even older
And now you're even older
And now you're even older

You're older than you've ever been
And now you're even older
And now you're older still

Time is marching on
And time is still marching on

This day will soon be at an end
And now it's even sooner
And now it's even sooner
And now it's even sooner

This day will soon be at an end
And now it's even sooner
And now it's sooner still

You're older than you've ever been
And now you're even older
And now you're even older
And now you're even older

You're older than you've ever been
And now you're even older
And now you're older still
