There were 87 Advil in the bottle now there's 30 left  
I ate 47 so what happened to the other 10?  
Why do you suspiciously change the subject and break  
my concentration  
As I dump the bottle out and I count the Advil up again?

Don't interrupt me as I struggle to complete this  
thought  
Have some respect for someone more forgetful than  
yourself

And I'm not done  
And I won't be till my head falls off

Hitting every pocket on my shirt, pants and overcoat  
And I'm hitting them again but I don't know where I put  
my notes  
Clearing my throat and gripping the lectern I smile and  
face my audience  
Clearing his throat and smiling with his hands on the  
bathroom sink

And when I lean my head against the frosted shower  
stall  
I see stuff through the glass that I don't recognize at all

And I'm not done  
And I won't be till my head falls off  
Though it may not be a long way off

I'm not done talking yet  
I'm not done talking yet

And when I lean my head against the frosted shower  
stall  
I see a broken figure silhouetted on the wall

And I'm not done  
And I won't be till my head falls off  
Though it may not be a long way off  
I won't be done until my head falls off
