Disgusted with what they do
So many lives taken and abused
Stripped from their freedom
Robbed from their lives
When they speak, who will believe them
When the powers claim it as lies
Knowing you've done nothing to stop this
How does it feel
Not saving lives
Disgusted with what they do
So many lives taken and abused
Stripped from their freedom
Robbed from their lives
When they speak, who will believe them
When the powers claim it as lies
Knowing you've done nothing to stop this
How does it feel
Not saving lives
Is it worth the weight you carry
When there is blood on your hands
And you can't wash it away
Blood on your hands
