Nothing can make you high
Or put fire in your eyes
Or give you a chance to fly
When you need the wings
When all that youve got is doubt
And nothing can stop you from feeling down
But oh I know, I know exactly how you feel

But can you believe now
When you're on your knees now
Begging and pleading now
Can you believe
When all that youve got is doubt
And no one to pull you out
When your heart is slowin down
Can you believe

See the person I love the most
Is so far away tonight
And no other medicine or promise is
Gonna heal me up right
But I got to believe
That her and me
Will be together
Cause that's all I got
And Oh, I know
When you're down at the bottom
Can you believe

But can you believe now
When you're on your knees now
Begging and pleading now
Can you believe
When all that youve got is doubt
And no one to pull you out
When your heart is slowin down
Can you believe

Can you believe when all hope seems gone
When your mother and father can't keep you safe from
harm

Can you forgive in your heart
Can you ask for forgiveness
When nobody else believes can you believe
Can you believe in yourself

But can you believe now
When you're on your knees now
Begging and pleading now
Can you believe
When all that you've got is doubt
And no one to pull you out
When your heart is slowing down
Can you believe

If nobody's watchin
You will never know
If somebody's watchin
You will never know
If nobody's watchin
You will never know
If somebody's watchin
You will never know
If nobody's watchin
You will never know
If somebody's watchin
You will never know
