If you love me then just give it all to me  
Cause' there's nothing I wouldn't do for you  
So hold me closer, darling  
As tight as can be  
I couldn't get close enough to you  
I couldn't get close enough to you last night  
The full moon was shining on me  
We danced around like vamps in the night  
I know that we, that we just met  
But my head is spinning and I could hardly reach the  
ground  
The sun is out, you shine on me  
Common, round and round we go again, yeah, yeah!  
French tongue and kisses  
I don't wanna jinx this  
I could make love to you all night  
But baby I'll take it slow  
Honey, you and I both know that rushing some things  
just ain't right  
Oh my god you turn me on  
Oh my god you turn me
