...And that's when it hit me.  
wake up!  
get outside,  
get away from this,  
stop eating the lies.  
she's a rusty dagger  
and she'll puncture you  
with her darling looks  
and her darling smile.  
if she gets too close  
she's gonna eat you alive.  
she'll consume every part of you  
until there's nothing left.  
yeah, there's nothing left.  
you're a hollow shell  
and you're bigger than that.

hurt once, hurt twice.  
gotta empty feeling burning me inside.  
gonna live fast and die slow.  
die so sloooooooooooooow.

I'm sick of treating others like they should be treated  
if i could make them, then i swear that they'd all pay  
cause' all they ever do is try and take advantage  
of others kindness when they try to be nice to them  
and everybody knows  
there's a giant heart that lives on my sleeve  
I think it's bigger than me, yeah.  
but the queen of swords, she won't hurt me.  
she's tempered  
and she can carry the weight of the world on her back.

"it's like you're my best friend."  
what a thing to say.  
what kind of line is that?

you kill me.  
please kill me quick  
and i'll come back again to haunt you.  
i promise.

slide the skewer.  
cut me deep.  
watch the red flow to my feet.  
i reach for you  
and grab at you  
but you want no part of me.  
let the knife fall down my veins.  
make a waterfall into a tidal wave.  
my well is drying  
as i loose my coloring.

now i've got skin like you.  
it's alabaster turning blue
